

LOOKING FOR A LEISURE ACTIVITY FOR MY CHILD

I have no idea what my child would enjoy doing, but I am looking for some suitable after school activity for him/her.

I am aware of what my child likes and what makes him/her happy.

I am aware of my child's talents.

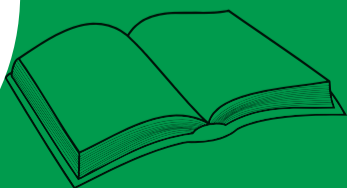

I am aware of the activities that my child enjoys and should pursue.

I have a list of activities that my child enjoys, that contribute to his/her growth and that she/he is naturally talented for.

I will start exploring activities available in my neighbourhood.

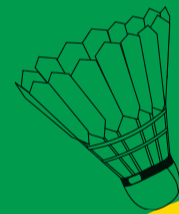

I don't know what my child would like to get involved in. I want him/her to learn something new. I want him/her to meet new friends.

I can see that he/she...
A) has a great imagination while drawing and knows basic shapes,
B) has obvious fondness of animals: whenever we meet a dog or a cat, he/she knows how to connect with them,
C) has great physical skills and is fast.

I can see that he/she...
A) is happy with a pencil and a sheet of paper and can spend hours drawing,
B) enjoys taking care of his/her hamster and would love to have another pet,
C) is unstoppable when we go outside: keeps running and jumping.

I can see that...
A) basic shapes are not enough for him/her anymore, he/she is very playful with colors, but I don't know how to help him/her to improve,
B) he/she is interested in books about animals, watches documentaries about them and is curious about how to take care of a horse, for example,
C) running and jumping on the playground will not do anymore, we invent more complicated hurdles and races.

I should look for activities that will help him/her...
A) learn different techniques of drawing and painting,
B) recognize different types of animals and learn how to take care of them,
C) burn his/her physical energy during supervised trainings, focused on team cooperation in a group.

I will check the internet and...
A) google the name of the activity and the Municipality,
B) enter the hashtags on social media or search for FB groups of Municipality,
C) search the Municipality website for a list of organizations that offer after school activities.
I will visit the information center of the Municipality.
I will read publications issued by the Municipality.
I will investigate about the after school club activities in my child's school.
